OBJECTIVES

As a User Experience (UX) Designer with a background in civil engineering, I bring a unique perspective to UX design. My engineering background has equipped me with strong problem-solving, project management, and attention-to-detail skills, which I leverage to deliver intuitive, effective, and visually appealing interfaces. I have extensive experience leading complex end-to-end projects, conducting user research, and developing business intelligence and data analytics solutions that align with strategic and operational priorities.

EMPLOYMENT HISTORY

May 2024 — Present

Project/IT Systems Analyst, Ontario Public Service
Toronto

- Identified, mapped, analyzed, and evaluated business processes, focusing primarily on the experiences of Ontario Disability Support Program (ODSP) and Ontario Works beneficiaries along with their assigned case workers.

Key Achievements:

- Received recognition from senior leadership for exemplary project management skills and business analysis.

Jan 2024 — Apr 2024

Business Analyst, Centennial College
Toronto

- Led the identification, mapping, analysis, and evaluation of business processes and methods within the IT Infrastructure Service Delivery Department ensuring alignment with current and future business needs.
- Documented intricate business processes, methods, and practices alongside associated tools to facilitate organization understanding and knowledge transfer.
- Assisted Project Managers in executing projects by coordinating resources, managing timelines, and ensuring adherence to quality standards.
- Communicated project status updates to stakeholders and provide timely reports on project performance.

Key Achievement(s):

- Successfully mapped out the entire process of a new initiative in the Infrastructure Service Delivery Department, aiding managers and stakeholders in overseeing project implementation for reporting and decision-making purposes.

Oct 2022 — Mar 2023

UX Designer Intern, Paramount Students
İstanbul

- Collaborated with the design team to create user-centered digital experiences for web and mobile applications.
- Assisted in the design and launch of a CRM portal for partner institutions, enhancing student recruitment efforts.
- Designed various metric user interfaces tailored to different user type dashboards, improving usability and data accessibility.

Mar 2020 — Jan 2024

UX Designer, Fix25 Nigeria Limited
Lagos

- Led complex end-to-end projects ensuring alignment with strategic priorities and user-centered design methodologies.
- Conducted user research, functional assessments, and usability testing to ensure compliance with user needs and accessibility.
- Developed UI mockups, wireframes, user workflow diagrams, and prototypes for sustainable product releases.
- Conducted usability testing to gather feedback and optimize designs.

Key Achievements:

- Redesigned a mobile app interface for a fitness center, resulting in a 30% increase in user engagement.
- Conducted a usability study and implemented changes to the website information structure, leading to a 15% increase in conversion rates.
- Led the design of a new website feature praised by users and stakeholders for its ease of use and visual appeal.

VOLUNTEERING

Apr 2019 — Aug 2020

Digital Skills Trainer, Semi Colon Africa

Lagos

- Successfully trained 2 cohorts on Digital Skills and Web Design Basics utilizing HTML, CSS, and JavaScript, empowering individuals to develop essential digital competencies.
- Actively engaged with the local technology community, fostering connections and collaboration among professionals and enthusiasts alike.
- Played a pivotal role in organizing and hosting an open house and community hangout, providing a platform for professionals and students to unwind, network, and exchange inspiring ideas.

Mar 2016 — Oct 2018

Digital Skills Trainer , SAP

- Volunteered as a Digital Skill Trainer for SAP Africa Code Week, dedicated to introducing computer science concepts to children between ages 8 and 16.
- Designed and delivered interactive workshops and activities to engage children in learning fundamental digital skills, coding concepts, and problem-solving techniques.
- Collaborated with fellow trainers to develop curriculum materials and lesson plans tailored to the diverse needs and interests of participating children.
- Provided individualized support and encouragement to students, fostering a positive learning environment and empowering them to explore their creativity and curiosity in technology.
- Organized and facilitated group projects and coding challenges, encouraging teamwork, collaboration, and innovation among participants.
- Participated in post-event evaluations and feedback sessions to continuously improve program effectiveness and impact.

Key Achievement:

- Inspired and mentored over 600 children to develop an interest in technology and pursue further education and careers in STEM fields.
